Independent auditor's report on review of quarterly financial information

The Shareholders, Board of Directors and Officers
Manabi S.A.
Rio de Janeiro - RJ

Introduction

We have reviewed the accompanying individual and consolidated quarterly financial information of Manabi S.A., contained in the quarterly financial information form (ITR) as of June 30, 2014, which comprises the balance sheet as of June 30, 2014 and the related statements of operations for the three and six month period then ended, statements of comprehensive income, statement of changes in equity and cash flows for the three and six months periods then ended, including explanatory notes.

Management is responsible for the preparation and presentation of the individual quarterly financial information in accordance with Accounting Pronouncement CPC 21(R1) – Interim Financial Information (“CPC 21 (R1)”), issued by the Brazilian Accounting Standards Board (CPC), and the consolidated quarterly financial information in accordance with CPC 21 (R1) and International Accounting Standard IAS 34 - Interim Financial Reporting (“IAS 34”), issued by the International Accounting Standards Board (IASB), as well as for the fair presentation of this information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this quarterly financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Review Engagements (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, mainly to the professionals responsible for financial and accounting issues and the application of analytical and other review procedures. A review is significantly less in scope than an audit conducted in accordance with auditing standards and, accordingly, does not allow us to obtain assurance that we became aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion

Conclusion on the consolidated quarterly financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated financial information referred to above was not prepared, in all material aspects, in accordance with CPC 21 (R1) and IAS34 applicable to the preparation of Interim Financial Information (ITR), and presented consistently with the standards issued by the Brazilian Securities and Exchange Commission (CVM).

Emphasis paragraph

As described in the Note 1, the Company and its subsidiaries will continue to develop business in the mining sector and the required investments to implement the business plan are significant. Currently, the Company has no cash generating activities or sufficient funds to implement its investment plan, depending on the shareholders' funds or third parties to implement the business plan. The recoverability of amounts recorded in noncurrent assets depends on the success of the future operations of the Company and its subsidiaries, and the lack of funds required for the implementation of the business plans could raise doubts as to the continuity of the Company and its subsidiaries. The quarterly information was prepared on the assumption that the business will continue as a going concern. Management's plans with respect to operating activities are described in Note 1. Our conclusion is not qualified in respect of this matter.

Rio de Janeiro, August 7th, 2014.

Manabi S.A.

Notes to unaudited quarterly financial information

June 30, 2014

(In thousands of Reais, except when otherwise indicated)

1. Operations

Manabi S.A. (“Manabi” or “Company”) is a publicly-held company, with the corporate purpose of (i) exploration, development and negotiation of business opportunities in exploration, economic exploration, development, mining, extraction, production and sale of iron ore and other metal deposits; (ii) investment, equity interests and operation of assets and companies in the sectors of exploration of iron ore deposits and other metal deposits, including logistics, transportation, industrial facilities and other infrastructure related to such business opportunities, assets and companies; (iii) research, exploration, extraction, processing, manufacturing, transportation, export and trading of the mineral assets and products listed in item (i) above; and (iv) render geological services.

Manabi fully controls the companies Morro do Pilar Minerais S.A. (“MOPI”), Manabi Logística S.A. (“Manabi Log”), and Dutovias do Brasil S.A. (“Dutovias”).

MOPI’s business purpose is to: (a) research, explore, mine, process and transport mining goods and products; (b) render geological services; (c) render intermediation services related to the above described activities and subject; (d) hold equity interests in other companies, in Brazil or abroad; (e) lease vehicles, drills and equipment for drilling and mining; and (f) render drilling services for mining activities

Manabi Log’s business purpose is to consolidate efficient port logistics for distribution of the iron ore production. Currently, Manabi Log is not operational and owns the area on which it intends to build its port terminal called Porto Norte Capixaba.

On February 14, 2014, Manabi Log entered into an adhesion contract with the Secretariat of Ports of the Brazilian Presidency (SEP/PR), on behalf of the Federal Government, as granting authority, and with the intervenience of the National Water Transports Agency (ANTAQ), formalizing the authorization for construction and exploration of the Porto Norte Capixaba in the municipality of Linhares, State of Espírito Santo, as a private use port terminal, for purposes of handling and storage of cargo, valid for a period of 25 years renewable for successive periods. A material fact regarding this event was disclosed to the shareholders and to the market in general on February 28, 2014.

Construction of the Porto Norte Capixaba is subject to issuance of the applicable environmental and construction licenses and completion of the project’s financing plan.

Manabi S.A.

Notes to unaudited quarterly financial information (Continued)

June 30, 2014

(In thousands of Reais, except when otherwise indicated)

1. Operations (Continued)

Dutovias' business purpose is to focus on the transportation of iron ore from MOPI project through the use of a slurry pipeline, still to be developed.

The development and implementation of an integrated iron ore production and distribution project is capital intensive. In this context, Management believes that the funds held in cash are sufficient for the short term activities. Currently, the Company has no cash generating activities or sufficient funds to implement the whole of its investment plan, depending on the shareholders' funds or third parties to implement the business plan. Management continues to evaluate alternatives to raise additional funds through equity transactions and project financing that will enable this implementation.

The Company continues to invest primarily in (i) deepening its knowledge of the mineral asset with reports on exploration and survey, drilling, characterization and modeling, (ii) engineering, (iii) obtaining licenses required for operation, and (iv) logistics infrastructure.

The Company has engaged renowned companies to render drilling, chemical analysis of samples, preparation of environmental studies and development of engineering for the mine, pipeline and port terminal.

As mentioned in Note 7, the certification report for the Pilar Hill project was prepared by independent consulting company SRK Consulting and issued on February 24, 2014. This report was updated on May 23, 2014. Among the results of the additional works performed by SRK, the updated report showed a reduction in the mine's operating cost and in operating expenses (OPEX), in the investment (CAPEX) and in the environmental impact of the Pilar Hill Project, due to the revision of the mining plan, pursuant to the material fact issued on June 11, 2014. The quantity of mineral resources and quality thereof remain as presented on February 24, 2014.

2. Basis for preparation and presentation of quarterly information

The individual financial information has been prepared and are presented in accordance with CPC 21 (R1) - Interim Financial Statements, and applicable standards for quarterly information issued by the Brazilian Securities and Exchange Commission (*Comissão de Valores Mobiliários* - "CVM").

The consolidated financial information has been prepared in accordance with CPC 21 (R1) and international standard IAS 34 - Interim Financial Reporting, issued by the IASB, and applicable standards for interim information issued by the CVM.

Manabi S.A.

Notes to unaudited quarterly financial information (Continued)

June 30, 2014

(In thousands of Reais, except when otherwise indicated)

2. Basis for preparation and presentation of quarterly information (Continued)

The quarterly financial information should be read in conjunction with the financial statements as of December 31, 2013, which individual financial statements were prepared in accordance with accounting practices adopted in Brazil, including the provisions of the Brazilian Corporations' Law and accounting rules and procedures issued by the CVM and Accounting Pronouncements Committee and consolidated financial statements prepared in accordance with the International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board (IASB), and in accordance with accounting practices adopted in Brazil.

The Company's Management authorized the conclusion of the preparation of this quarterly financial information on August 7th, 2014.

3. Accounting practices

The quarterly financial information is presented based on the same accounting policies described in Note 3 of the audited financial statements of December 31, 2013.

The new accounting pronouncements issued by the IASB, effective as of January 1, 2014, as described in the audited financial statements of December 31, 2013, did not affect the individual and consolidated quarterly financial information.

3.1. Accounting judgment, estimates and assumptions

The Company uses significant accounting judgments, estimates and assumptions to measure and recognize certain assets and liabilities in its financial statements. The determination of these estimates takes into account past and current events, assumptions relating to future events, as well as other objective and subjective factors.

Significant items subject to estimates, which were taken into consideration, or which will affect the Company after start-up, include: selection of the useful life of property, plant and equipment; the reserves estimate included used in determining depreciation based on the units of production method; the assessment of the recoverable amount of each cash generating unit; analyses of impairment of property, plant and equipment; among others. The settlement of transactions involving such estimates may result in amounts different from those recorded in the financial statements due to the uncertainties inherent to the determination process. The Company reviews its estimates and assumptions at least annually.

Government bonds are allocated to an exclusive investment fund with yields determined by the Selic rate (LFT) and by the variation of the IPCA + spread (NTN-B). These bonds have generated an average return of 100.9% of the CDI (Interbank Deposit Certificate) in the six month period ended June 30, 2014. Government bonds are highly liquid, have low credit risk (sovereign risk) and can be sold at any time to meet the cash needs of the Company and its subsidiaries.

5. Investments in subsidiaries (Parent company)

Changes in investments during the period are as follows:

	12/31/2013	Capital increase	Equity results	6/30/2014
Investments				
MOPI	6,344	1,300	(183)	7,461
Manabi Log	28,394	13,000	(421)	40,973
Dutovias	(106) ¹	13,000	(104)	12,790
	<u>34,632</u>	<u>27,300</u>	<u>(708)</u>	<u>61,224</u>

¹ This amount was previously shown within liability as provision for losses on investments.

The advances for future capital increase are remitted to the subsidiaries basically to support expenditures on engineering, environmental studies, research, registration, appraisal, negotiation and documentation of the project areas.

On June 30, 2014, the balance of funds remitted by the Company to its subsidiaries MOPI, Manabi Log, and Dutovias, totaled R\$170, R\$4,990 and R\$7,121 respectively. The capitalization of these balances occurs within a period not greater than one year.

Construction in progress (consolidated) includes expenditures with development of the port and pipeline projects related to: (i) environmental licensing, additional environmental and engineering studies, stakeholder management; (ii) basic engineering project; and (iii) licencing and negotiation of the pipeline's easement areas.

7. Intangible assets

Intangible assets are comprised of existing prospecting rights and mineral resources in the Company.

Intangible assets are represented by 91 mining rights related to the MOPI and MOES projects, their respective mineral resources and exploration expenditures, located in the State of Minas Gerais, of which 5 are in application for research stage, 67 in research permit stage, 10 in application for mining stage, 6 are qualifications in edicts of areas considered available by the DNPM (National Department of Mineral Production), and 3 relate to licensing requests.

The certification report for the MOPI project, issued on February 24, 2014, was conducted by one of the world's leaders in independent certification of mineral resources based on 449 drill holes, including an extension of 100 thousand linear meters, and certified 1.33 billion tons of measured and indicated (M&I) resources and 312 million tons of inferred resources. In addition, the report noted an additional exploration potential between 500 Mt and 1.200 Mt. This report was updated on May 23, 2014. Among the results of the additional works performed by SRK, the updated report showed a reduction in the mine's operating cost and in operating expenses (OPEX), in the investment (CAPEX) and in the environmental impact of the Pilar Hill Project, due to the revision of the mining plan, pursuant to the material fact issued on June 11, 2014.

Manabi S.A.

Notes to unaudited quarterly financial information (Continued)

June 30, 2014

(In thousands of Reais, except when otherwise indicated)

7. Intangible assets (Continued)

The MOES project's certification report, also prepared by the same external company in April 2012, included approximately 389 Mt in resources categorized as Inferred and additional exploration potential of 250 to 450 Mt.

The intangible assets were broken down as follows:

	Amortization rate	12/31/2013	Additions	Amortization	6/30/2014
Expenditures related to exploration and valuation of mineral resources and prospecting rights	-	192,183	22,216	-	214,399
Intangible assets acquired in business combination	-	546,868	-	-	546,868
Software	20%	727	46	(90)	683
		<u>739,778</u>	<u>22,262</u>	<u>(90)</u>	<u>761,950</u>

8. Income tax and social contribution

As of June 30, 2014, the Company's tax loss carryforward and negative social contribution basis amounted to R\$72,474 (R\$65,078 as of December 31, 2013), in relation to which Management opted not to record deferred tax assets in this stage of the project. Tax loss carryforwards generated in Brazil do not expire and are offset with future taxable profit, limited to 30% of the taxable profit in each year.

On May 14, 2014 Provisional Measure 627/2013 was converted into Law No. 12,973 which revokes the transitional tax regime established by Law 11,941 of 2009 and brings other relevant changes to federal tax legislation.

The Company's management performed studies and concluded that, due to the current phase of the project, this new Law will not impact the quarterly financial and have decided for the early adoption in 2014.

Manabi S.A.

9. Transactions with related parties

The Company is currently in the prospection phase and has no operational transactions with related parties.

Compensation of key management personnel

The Company considers all current officers and board members to be key management personnel. For the six month period ended June 30, 2014, the compensation of these officers and board members was R\$ 2,909 and R\$ 876 respectively. These values do not include the amount of R\$1,431 related to share based payment (stock options) to the officers which was recorded in the statement of operations.

The annual fees of the officers and board members for the period from May 1, 2014 to April 30, 2015 in the aggregate amount of up to R\$ 7,062 and R\$ 3,240, respectively, were approved in the Annual General Meeting held on April 29, 2014.

Share based payment (stock options)

In the Annual Shareholders' Meeting held on July 21, 2011, the Company's shareholders approved a stock option plan for officers, members of the Board of Directors, and employees. The stock options issued by the Company under the plan are primary and, therefore, involve the issuance of new shares.

As at June 30, 2014, a total of 28,980 (twenty-eight thousand, nine hundred and eighty) options had been granted, by means of individual agreements between the Company and each beneficiary. As a condition for entitlement to the stock purchase option, the beneficiary must complete three years of service (vesting period). These options, in the proportion of one third of the total number of shares available for the plan, are exercisable in three annual tranches. The first tranche can be exercised in 12 months from the grant date and the following tranches, pursuant to the same conditions, can be exercised in 24 and 36 months from the grant date. The participants have a maximum term of sixty months from the maturity date to exercise the options.

The exercise price of the options granted until August 20, 2012 is R\$1,576.00 (one thousand, five hundred and seventy six reais) per share and, after such date, R\$2,547.25 (two thousand, five hundred and forty-seven reais and twenty-five cents), which shall remain unchanged until the effective exercise date of the option, subject to adjustment in the event of share grouping or share split. As the Company has not paid dividends to date, the valuation of these options assumes no payment of dividends for the duration of the stock option program. Share-based compensation was measured and recognized at fair value, using the Merton (1973) model, which is an extension of the Black & Scholes model.

Options expired	<u>35</u>	<u>481</u>	<u>-</u>	<u>-</u>			
Recorded in statement of operations	<u>939</u>	<u>7,299</u>	<u>8,898</u>	<u>5,017</u>			
Accumulated amount recorded in equity	<u>939</u>	<u>8,238</u>	<u>17,136</u>	<u>22,153</u>			

In the event the beneficiary resigns from his position, the non-mature options expire without any indemnity or compensation and the mature options may be exercised within ninety days. To date, 580 (five hundred and eighty) shares expired due to non-exercise of the option, corresponding to R\$516, amount measured in the moment that the options were granted and recognized in statement of operations and equity during the vesting period.

In the event the beneficiary's employment contract is terminated for cause, all rights expire automatically, regardless of notice or indemnification.

In the event the beneficiary is dismissed from his position without breach of duties and privileges, the specific rights that may be exercised in accordance with the relevant option on the date of issue may be exercised within the remaining exercise period available to such beneficiary.

11. Equity (Continued)

Capital stock (Continued)

Each common share entitles its holder to 1(one) vote in the Shareholders' Meetings, whereas each preferred share entitles its holder to the number of votes in Shareholders' Meetings based on the number of common shares into which each preferred share is convertible, as applicable, according and subject to the Shareholders' Agreement.

Capital reserves

Capital reserves are composed of subscription warrants and stock options granted.

On June 8, 2011, the Company issued subscription warrants to shareholders (i) Fábrica Holding S.A., (ii) Mathew Todd Goldsmith and (iii) Michael Stephen Vitton. These warrants entitle the holders to an option to subscribe a maximum of 44,854 common shares for R\$ 0.01 (one cent), in accordance with the terms and conditions set forth in the Subscription Warrant Certificate, as amended at the Special Shareholders' Meeting held on September 10, 2012, exercisable, in whole or in part, at the holder's discretion, upon occurrence of the events defined ("Execution Events").

Shareholder Fábrica Holding S.A. has the right to subscribe 60% of such shares the other two shareholders may subscribe 20% each.

The mentioned Execution Events had not occurred by June 30, 2014 and these events are outside the control of the option holders. Therefore, these options did not have any impact on the quarterly financial information.

12. Financial income

	Consolidated	
	6/30/2014	6/30/2013
Bank deposit certificates (CDBs)	-	449
Debentures with repurchase agreements	-	599
Government bonds	25,571	20,627
Other financial revenues	392	107
	<u>25,963</u>	<u>21,782</u>

13. Financial instruments

Financial assets as of June 30, 2014 are represented by cash, funds in bank accounts, and marketable securities, classified and measured at fair value through profit or loss.

Financial liabilities are represented by trade accounts payable, recorded at amortized cost. The average maturity period of trade accounts payable is 30 days and there are no relevant differences between carrying amounts and fair values.

The Company does not carry out hedge, swap or any other transactions that involve derivative financial instruments.

14. Insurance coverage

On July 4, 2014, the liability insurance for directors and officers was renewed in the insured amount of up to R\$50,000. The renewal was carried out with Itaú Seguros S.A., which kept the same coverage of the previous policy and granted more favorable commercial conditions to the Company.
