NOTICE TO MARKET

MLog S.A. (“MLog” or “Company”) informs that it has executed, through its subsidiary Asgaard Navegação S.A. (“Asgaard”), a commitment to build two Platform Supply Vessel 4500 (“PSV 4500”) with a renowned shipyard.

Asgaard won the bid for the PSVs 4500 for Petrobras, on the 6th round of the Maritime Support Fleet Renovation Program (“Prorefam”). The contracts were celebrated in May 2014, for eight years charters, renewable for equal period.

PSVs are used mainly for logistics support, transporting equipment, tools, personnel, among other supplies, to oil and gas platforms.

This commitment evidences one more important step for Asgaard to add 2 PSVs to its current owned fleet of 1 Oil Spill Response Vessel (“OSRV”), already in operation, and allows Asgaard to use the PSVs’ tonnage throughout the construction period, to charter other vessels and increase its cash flow generation.

Hereby,

Yours Sincerely,

MLOG S.A.
