MLog S.A. ("MLog" or "The Company") informs to its shareholders and the market in general that Asgaard Navegação S.A. ("Asgard Navegação"), a subsidiary in which MLog holds 99.99% stake, executed with Petrobras one charter contract for an Oil Spill Response Vessel ("OSRV") for a period of 180 days, extendable for the same period.

The OSRV "Asgard Sophia" shall commence operations in early April and is equipped with modern equipment of oil recovery, including oil boom and skimmer.

This is the first vessel from Asgaard Navegação commencing operations, turning MLog into an operational company.

For Patricia Coelho, Chief Executive Officer of MLog, "the execution of Asgaard Sophia's chartering agreement with Petrobras, is the result of commitment and dedication from a team of which I have a great honor to be part of. For us it is the consolidation of a new phase for MLog and a milestone towards the desired goals intended by us and the shareholders."

The Company is available shall there be any questions.
